MEMORANDUM FOR: DO/

25X1

SUBJECT: SSCI Request for DO Briefing on Narcotics

1. The Staff Director of the SSCI has requested that arrangements be made for a Directorate of Operations briefing on narcotics for Anne Greene, a staff member. Ms. Greene has TS/Codeword clearances and has been tasked by the Staff Director to develop general knowledge of Intelligence Community's programs in counternarcotics. Part of her responsibility will be to review legislation pertinent to the U.S. counternarcotics effort and to develop some understanding of what resources are committed. In the past two months, she attended briefings given by the NIO and the Chief, DI/OGI/Narcotics. [redacted] in particular, spent several hours reviewing the analytical support which the DI offers, especially as it concerned the U.S. effort in Latin America. Ms. Greene has worked for the SSCI for the past year.

25X1

2. Ms. Greene has submitted questions (attached) indicating areas of interest. She does not have extensive background nor understanding of intelligence functions. However, a general overview -- no more than an hour -- of the clandestine effort against the narcotics target would help in her SSCI responsibilities. At the SSCI, she does not have access to sensitive information concerning covert action programs.
